Bharat Nage

Senior Software Engineer | .NET Technical Lead | Backend & APIs | SQL Server | ERP & Logistics

bn9127@gmail.com +91 97623 70826 Pune, India linkedin.com/in/bn9127 github.com/bn9127

PROFESSIONAL SUMMARY

Senior Software Engineer and Technical Lead with 12+ years of experience building and supporting enterprise ERP and air-cargo logistics systems. Strong hands-on expertise in C#, VB.NET, ASP.NET, ASP.NET Core, REST/SOAP APIs, Windows Services and SQL Server, with end-to-end ownership across requirements, backend development, database engineering, integrations, reporting, UAT and production releases. Technical lead for GALAXY V3, a multi-tenant air-cargo GHA platform integrating ACS, customs, Pricing Engine, EDI/partner and banking workflows. Improved SQL query execution time by ~50% through T-SQL optimization and indexing. Experienced in Agile/Scrum delivery and Azure DevOps sprint management, with growing capability in React and AI-assisted software development.

PROFESSIONAL EXPERIENCE

Dec 2021 – Oct 2026

Senior Programmer Analyst

Kale Logistics Solutions

- Technical Leadership & Delivery: Lead a 7-developer team in delivering GALAXY V3, a multi-tenant air-cargo platform supporting **500+ transactions/users**, covering APIs, database engineering, and production releases.
- Integration Engineering: Design and implement enterprise integrations across ACS (synchronous/asynchronous), customs (BOE/OOC), Pricing Engine billing APIs, EDI/partner interfaces and bank integration using ASP.NET Core.
- Performance Engineering: Optimize T-SQL stored procedures, views and indexes and develop tenant-wise database comparison/upgrade scripts; reduced query execution time by ~50% and supported lower-downtime tenant upgrades.
- Reporting & Data Operations: Build and maintain SSRS operational and customer-specific reports, SSIS packages and SQL Server Agent jobs supporting scheduled data loads and business operations.
- Agile Delivery: Manage sprint activities in Azure DevOps, including sprint planning, work-item tracking, backlog updates, task assignment, progress monitoring and UAT coordination.
- Team Enablement: Mentor **7 developers** on coding standards, SDLC best practices, and AI-assisted workflows with mandatory human review before code check-in.

Oct 2013 – Nov 2021

Senior IT Engineer

Technoforce Solutions

- ERP & Application Engineering: Led development and production support of ERP and shop-floor systems using C# / VB.NET, WinForms, ASP.NET Web Forms and SQL Server.
- SQL & Reporting: Developed and optimized T-SQL stored procedures, triggers, views and SQL Server Agent jobs; translated business requirements into SSRS and Crystal Reports.
- Quality & Release Ownership: Owned QA/UAT, releases and production support while mentoring team members and coordinating development activities.
- Shop-floor Automation: Delivered automation for rolling-machine and shell-alignment processes and migrated legacy VB applications to C# WinForms.

EDUCATION

2009 – 2013

B.E. Computer Science and Engineering
Sir M. Visvesvaraya Institute of Technology, Savitribai Phule Pune University

CORE TECHNICAL SKILLS

Technical Skills

C# / .NET, ASP.NET Core, ASP.NET Web Forms, REST & SOAP APIs, SQL Server / T-SQL, Stored Procedures / Views / Triggers, SSIS / SSRS / Crystal Reports, Windows Services / WinForms, System Integration / EDI, Multi-tenant Applications, Database Performance Tuning, Azure DevOps Boards / Sprint Management, Agile / Scrum / UAT, PowerShell, React (working knowledge), AI-assisted Development

SELECTED PROJECTS

Galaxy V3

Air Cargo Logistics / GHA — Multi-tenant ASP.NET / SQL Server platform with tenant-specific configuration, databases, SSRS reports, REST/SOAP APIs, Windows Services and WinForms utilities. Implemented ACS, customs, Pricing Engine and EDI integrations; database comparison scripts support lower-downtime tenant upgrades.

Shipment Desk

Personal Project — ASP.NET Core Web API published on GitHub with a React UI in development for listing and creating shipments through the API, using components, state and fetch-based integration.

Tfapps ERP

Department-wise ERP covering payroll, stock allocation, automated BOP/BOM/ODL/PO, GRN and bill entry, delivered with WinForms, SQL Server, SSRS/Crystal Reports and SQL Server jobs from requirements through deployment.

CMS

Air Cargo Logistics — ASP.NET, C#, Web API, Windows Services and SQL Server solution work supporting digitization of export and import logistics processes.

CERTIFICATIONS

2025 **AI Skills Passport**, EY & Microsoft

2025 **Generative AI**, Simplilearn & IBM SkillsBuild

Prompt Engineering with ChatGPT

2025 **Agile Software Development (Scrum)**

2025 **Foundations of Cyber Security**, Simplilearn

2025 **Data Analytics Foundations**, Simplilearn

ADDITIONAL

- Mentored junior developers on coding standards, SDLC and AI-assisted workflows.
